Roll Rite Models: RR-30, RR-50, RR-75

Patent Pending

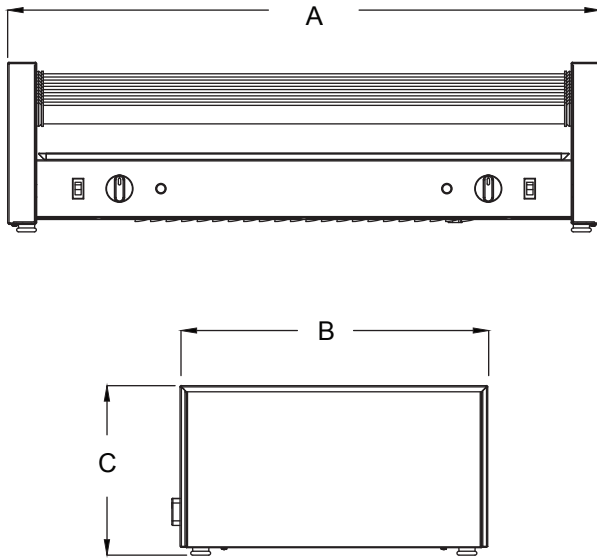

The new Roll Rite unit is the latest innovation from the Roundup brand. While typical roller grills are limited to only sausages and hot dogs, the Roll Rite evenly cooks virtually all roller grill food products—egg rolls, burritos, stuffed breadsticks, taquitos, and more—because of its innovative rollers.

The rollers on the Roll Rite unit are unlike any other roller grill. Their oblong shape ensures food product does not get stuck between the rollers. Their textured surface grips the food product to keep it continuously turning. This combination means food products of virtually all shapes and sizes are cooked evenly and look appetizing to customers.

Features:

- Oblong-shaped rollers ensure food product won't get stuck between rollers.
- Textured surface on rollers grips food product and ensures it's continuously turned.
- Thermostat controls for front and rear rollers allow you to adjust the temperature for the specific food product.
- Evenly cooks virtually all roller grill products—egg rolls, burritos, stuffed breadsticks, taquitos, and more.
- Available in three different capacities—30, 50, and 75.

Dimensions

Model & Mfg. No.	Width (A)	Depth (B)	Height (C)	Operating Weight	Shipping Weight
RR-30 9300400	23 3/4" (603 mm)	18 9/16" (471 mm)	10 3/16" (259 mm)	45 lbs. (20 kg)	55 lbs. (25 kg)
RR-50 9300402	35 3/4" (908 mm)	18 9/16" (471 mm)	10 3/16" (259 mm)	65 lbs. (29 kg)	75 lbs. (34 kg)
RR-75 9300404	35 3/4" (908 mm)	26 3/8" (670 mm)	10 3/16" (259 mm)	80 lbs. (36 kg)	95 lbs. (43 kg)

Electrical Ratings

Model & Mfg. No.	Volts	Watts	Amp.	Hz.
RR-30 9300400	120	1100	9.2	60
RR-50 9300402				
RR-75 9300404				

Capacities

Model & Mfg. No.	Capacity	No. of Rollers
RR-30 9300400	30	11
RR-50 9300402	50	11
RR-75 9300404	75	16

Temperature Ranges

Model & Mfg. No.	Hold Range	Cook Range
RR-30 9300400	140°F to 180°F (60°C to 82°C)	180°F to 220°F (82°C to 104°C)
RR-50 9300402		
RR-75 9300404
