## **SUBJECT: VCT-200/250 McDONALD'S**

The McDonald's restaurants are now being allowed to adjust the Platen Set Point Temperature. (SP-P).

The standard Platen Set Point Temperature is 560°F. The restaurants can reduce the Platen Temperature in 5°F increments no lower than 540°F. This can be accomplished by pressing both the Up and Down arrows simultaneously, then pressing the Up or Down arrow to change the temperature.

A "Be Well Dressed" poster is being made for the restaurants by their Corporation.
