SERVICE BULLETIN

No. 289

Date: 6-15-09

TO: Authorized Service Agents

SUBJECT: McDonalds Enhanced Breakfast Chute Design P/N 0504371

AFFECTED ITEMS: McDonalds UTX-200 Series

EXPIRATION DATE: NONE

AJ Antunes & Co is pleased to announce that an enhanced breakfast chute is now available for purchase for the McDonald's UTX-200 series Universal Toasters. This new design installs easily over the existing crumb tray on the back of the UTX-200 and guides bagels and muffins into the toaster's heat zone. This ensures they are consistently toasted by decreasing the light edges. Toasters manufactured as of June 2009 already have this breakfast chute. The list price is \$64.60 each

McDonalds has been made aware if its availability so be prepared for potential Sales!
