SUBJECT: DFW/DFWT-100/200 Non-Timer Deluxe Food Warmers

There have been some changes to the Temperature Control Board for the Non-Timer Deluxe Food Warmers.

Kit # 7000154 was designed to retrofit the 9100XXX series that were built from 5-97 to 10-97 (Serial #'s 0705XXXX to 0710XXXX). It consisted of a new style control board # 4070033 & relay # 405K125 along with some hardware & instructions. Originally, these units were built with a temperature control board # 4070020 that had a black mechanical relay soldered on it. If this style of control board and/or the relay failed, the unit had to be retrofitted with kit # 7000154 (See Service Bulletin #103). Units manufactured during & after 11-97 (Serial #'s 0711XXXX and up) were built with the newer style control board # 4070033.

The current Temperature Control Board is now # 7000392, List Price \$52.20. If you are replacing the old style control board # 4070020, please continue to order # 7000154. If you order # 4070033, you will receive the # 7000392.
