Subject: McAlister's Deli

McAlister's Deli currently uses several of the Roundup "Miracle Steamers" models MS-150 (Mfg # 9100424) and/or MS-250 (Mfg #'s 9100432 & 9100433). It has been brought to our attention that in several instances, McAlister Deli personnel have obtained some incorrect parts for their steamers. The parts in question are the control panel label & the momentary push switch. They are detailed as follows.

McAlister's Deli Steamers MS-150, MS-250 (Mfg #'s 9100424, 9100432, 9100433)	Control Panel Label P/N 1001102	Momentary Push Switch "White" P/N 4010190
All others	Control Panel Label P/N 1001036	Momentary Push Switch "Green" P/N 4010166

Please refer to pages 22-26, item # 27 & # 66 in the MS owner's manual P/N 1010699 for reference. Please download one from our website if necessary: www.ajantunes.com. To avoid this reoccurrence, we recommend that your parts personnel always request the model number, serial number, & manufacturing number (located underneath the unit) from the customer.

Please contact the factory if you have any questions.
